L’Université Laval

**Mission**

Université Laval, the oldest French-language university in North America, is an institution of international repute and high academic standards that contributes to society’s growth and development

- By training qualified, responsible individuals who promote change
- By advancing and sharing knowledge in a dynamic environment of research and creativity
- A university committed to its community that builds productive partnerships with all sectors of society while staying true to its fundamental mission, independence, and responsibilities
- A model university that gives all members of its community the chance to grow, develop their potential, and establish themselves in a dynamic, stimulating, diverse, and respectful institutional setting
- A modern university that is committed to sustainable development and manages its resources responsibly

**Vision**

The members of the university community share a stimulating common vision of the future: to become one of the best universities in the world. To that end, Université Laval also intends to stand out by being

- A complete university recognized as an establishment with an international reputation for its students and high quality educational programs
- A university on the cutting edge of research and creation that distinguishes itself on the national and international scenes through its exceptional achievements
- An open university that promotes dialog, cooperation, and the participation of its members in major world issues

**Values**

The university community’s actions are geared to bolstering student success and reflecting the following fundamental institutional values:

- Respect for the diversity of people, societies, knowledge, and ways of thinking
- Humanistic and ethical approach
- Development of critical thinking and judgment
- Personal and community involvement and leadership
- Promotion of creation, innovation, and excellence

---

1 Horizon 2012 : Orientations de développement de l’Université Laval
Our academic community’s vibrancy and creative thinking have allowed us to pursue Université Laval’s development and fulfill its mission, despite the sweeping budget cuts imposed on all Québec universities in 2013–2014.

In keeping with past years, fiscal year 2013–2014 also saw a renewed increase in student numbers, which were up 3% overall with respect to last year. This outstanding result not only shows the effectiveness of recruitment efforts by Université Laval units, but also testifies to the growing appeal of our great teaching and research institution, especially among international students and people returning to school.

Various initiatives strengthened our teaching and research position this year. The University Council approved seven new programs, three educational leadership chairs, three research chairs, and two new academic profiles (research and honours). These achievements also reflect our ongoing commitment to enhancing our educational offerings to better reflect constantly changing social needs.

Central to our new programs—and to all of our educational activities—are the digital initiatives we have been pursuing to promote academic success and innovation in education for over 30 years, positioning Université Laval as a leader in distance and blended learning. On the research front, we continued building on our strengths as we work to help provide answers to the major challenges of our era. The creation of a fourth teaching and research network under the auspices of the Bordeaux-Laval Alliance is a good example. The new network with its focus on optics/photonics—a field of predilection at UL—is an addition to existing networks specializing in wood and forests, nutrition, and continental water management.

Many other developments marked the year 2013–2014 at Université Laval, and I invite all those who wish to find out more to read my 2014 back-to-school address (French only) and the report I presented at the annual general meeting.

I also urge all members of our vast university community to continue investing with confidence and energy in the development of their units and departments, and the university as a whole. Together we have successfully tackled the many challenges of recent years. And together we will rise to the challenges of tomorrow as we ensure that Université Laval remains one of the best places in the world to study, work, do research, and live.
To begin, I would like to pay tribute to the remarkable efforts of our university community in 2013–2014. Maintaining a balanced budget without undermining the quality of our programs or the excellence of our research community is a real exploit in light of the new cuts imposed on Québec’s university network in December 2013.

Still, it is troubling to see our institution’s financial situation being weakened year after year. Above and beyond the need to consolidate public finances, I do hope that viable, long-term solutions will soon be found in order to properly finance our universities and support their key role in Québec’s social and economic development. One thing is certain, Université Laval will continue seeking creative ways to resolve this dilemma.

Indeed, I would like to congratulate the Finance Department, whose rigorous budgetary preparation earned a seal of approval from the Government Finance Officers Association. This prestigious certification recognizes the implementation of a finance and budget process in keeping with North American best practices in the management of public funds.

Université Laval also obtained gold-level STARS accreditation in 2014, ranking first in Canada and ninth worldwide among the 300 institutions that went through the rigorous 150-criteria evaluation. This major honour, which is granted by the Association for the Advancement of Sustainability in Higher Education, underscores the scope of our achievements in the area of sustainable development with respect to teaching and research as well as our everyday operations and management style.

By the same token, ongoing efforts to enhance the quality of life of our educational, research and campus living environment reflect our determination to operate viably and sustainably and become a carbon neutral institution. Significant steps were also taken to implement the campus natural heritage management plan.

Lastly, I wish to draw attention to the work accomplished by the Université Laval management team and the commitment of all members of the university community. In all units and departments, these are the people who make UL such a great place to study, share, innovate, invest, excel, and grow. For a more detailed report on the issues dealt with by the board of directors during the 2013–2014 financial year, please see the report I presented at the Université Laval Annual General Meeting.

John R. Porter, C.Q., FRSC
Board Chair
L’UNIVERSITÉ LAVAL
at a glance

Students

Some 60,000 persons were enrolled in credited programs or continuing studies for the academic year 2013-2014.

The student enrolment for the fall term in 2013 was:

- 41,000 students, an increase of 2.5% compared to the 2012 fall term
- 73% in full-time studies
- 25% in graduate programs
- Some 5,100 foreign students or permanent residents, whom represent 12.5% of the total enrolment; in graduate programs, they represent 25% of the enrolment.

Near 900 medical residents and 400 postdoctoral fellows.

More than 200 student associations and two umbrella organizations: CADEUL for undergraduates and ÆLIÉS for graduate students.

With some 900 students in mobility outside Quebec every year, Université Laval is a leader in student mobility.

Education

- 17 faculties
- More than 60 departments, schools, and institutes
- Some 500 regular programs of study
- 5 profiles (International, Entrepreneurial, Sustainable development, Research, Distinction)
- 20 chairs in educational leadership
- Some 75 distance programs and more than 700 online courses
- An innovative and user-friendly digital learning environment (ENA) on which 4,911 websites of courses were posted in 2013-2014.
- Continuing education courses offered in Québec City, Montréal and in several others regions of Quebec.
- Some 12,000 students were enrolled in 2013-2014.
- Several affiliated health and social services institutions (including the CHU de Québec, one of the three largest hospitals in Canada) providing clinical training.

Staff

Some 9,000 full-time and part-time employees in October 15, 2013:

- Senior management: 13
- Professors-administrators: 118
- Professors: 1,457
- Lecturers and other members of teaching staff: 1,792
- Research professionals: 704
- Administrative management and executives: 167
- Administrative and support staff: 2,769
- Student staff and postdoctoral fellows: 2,704

Université Laval also boasts more than 3,800 clinical instructors or professors, and near 700 associate professors.

Research

$307 million in research funds, which represents the 8th rank among the Canada’s top 50 Research Universities.

More than 270 research centres, chairs, institutes and groups (in June 2014):

- 84 Canada Research Chairs
- 68 partnership chairs
- 3 Canada Excellence Research Chairs
- 38 research centers recognized by the University Council
- Some other 70 research groups, units, labs and others structures.

Host to ArcticNet, the Network of Centers of Excellence (NCE) with the most funding in Canada
Several affiliated research institutions, including the CHU de Québec Research Centre, the largest francophone health research centre in North America
Université Laval provided the impetus for the creation of Alliance santé Québec, an affiliated group bringing together major players in health research from the greater Québec City region

Diplomas
More than 11,500 diplomas and short-term programs awarded in 2013-2014:
• 5,251 bachelor’s degrees
• 1,940 master’s degrees
• 300 doctorates
• 1,745 certificates and undergraduate diplomas
• 597 graduate diplomas
• 1,540 short-term programs
• 180 postgraduates medical diplomas

A study, research, and living environment
The year 2013-2014 marks an important stage as Université Laval’s sustainability efforts earned a gold rating as part of the international STARS program administered by the Association for the Advancement of Sustainability in Higher Education. At the time of this accreditation, our university scored the top rating in Canada and was ranked 9th in the world.
Université Laval’s 1.8 km² main campus, one of the finest in the province of Québec, is home of extensive green spaces and wooded areas (64%)
The campus also boasts:
• Almost 40 buildings linked by a network of over 5 km of pedestrian tunnels
• Student residences BGE eco-certified providing over 2,300 rooms on campus
• 6 million library documents and thousands of electronic resources available online
• One of Canada’s most stunning and modern university sports complexes

Two buildings located in the historic districts of Québec City, one in the Lower Town (School of Visual Arts) and the other in the Upper Town (School of Architecture)
Université Laval has several other educational and research sites:
• Campus of Lévis in St - Romuald
• Pôle universitaire des Basses Laurentides
• Campus of Montréal
• Centre universitaire des Appalaches
• Forêt Montmorency
• École internationale d’été de Percée
• Several northern research stations

Outreach
Almost 270,000 graduates working in Québec and all around the world.
50 alumni clubs and 5 alumni network on five continents
Over 26 M$ raised from various donations to support students and the development of higher education and research
Some 800 agreements with more than 530 institutions of higher education in nearly 70 countries
One of the best university sport programs in Canada, with some 400 student athletes competing in 14 Rouge & Or clubs with a long tradition of excellence
